HARBOR FREIGHT TOOLS NEW U.S. GENERAL® 34 INCH 6-DRAWER FULL BANK SERVICE CARTS PROVIDE MORE STORAGE SPACE, BETTER VALUE THAN LEADING COMPETITOR

Storage Capacity of a Roll Cabinet with the Mobility of a Tool Cart Now Available in 6 Colors for Harbor Freight Low Price of \$699.99

(Calabasas, CA; July 7, 2021) Harbor Freight Tools, America's go-to store for quality tools at low prices has added to the popular U.S. General® Tool storage line with a new 34 inch full bank service cart that provides 18,700 cubic inches of storage space—more storage space than the comparable Snap-On cart*—at an incredible low price of \$699.99.

Combining the storage capacity of a roll cabinet with the easy mobility of a tool cart, the new full bank service cart can keep all your most commonly used tools within arm's reach anywhere in your shop or workspace.

The cart's top features powerful gas struts that smoothly open to a full 90 degree angle, providing easy access to 5,000 cubic inches of storage space, including an internal pry bar storage system that securely stores pry bars, extensions, even screw drivers up to 31 inches long. A pass-through port lets you run an optional power strip into the cart, keeping your batteries, lights, and electronics charged and ready to go.

The cart features six full width drawers, each equipped with heavy duty ball bearing slides and feature full length latches so you can conveniently grab it anywhere along the drawer to open it. The top 5 drawers measure 3-3/4" tall, and have a 100 lb. weight capacity; the bottom drawer measure 6-3/4" and can handle up to 200 lbs. The integrated locking system secures the drawers when you need it, but also provides the option to access all drawers when the lid is closed or even locked. All drawers and the top compartment are equipped with custom fit heavy duty non slip liners, to keep your tools organized and protected even when the cart is in motion.

This cart is built for maneuverability, with four swivel casters (two that lock to keep it in place) and chemical resistant five inch soft tread wheels that can effortlessly roll over cracked concrete, extension cords and air hoses even when the cart has its total weight capacity of 1,200 pounds.

Built to last with a one-piece, fully welded body for maximum strength and a chemical and scratch resistant powder coat finish that will withstand years of abuse, the cart also features built-in impact resistant corner guards to prevent accidental dings, dents and scratches around the shop. The cart is available in six colors: red, black, orange, yellow, blue, and green all featuring sleek black trim, that you can mix and match with other U.S. General Storage components. You can also customize it further with the full line of U.S. General magnetic accessories.

The U.S. General 34" Full Bank Service cart is available at Harbor Freight Tools stores and online at www.harborfreight.com.

*compared to Snap-On Compact Roll Cart KRSC326FBFI with 16,847 cubic inches.

About Harbor Freight Tools

For more than 40 years, Harbor Freight Tools has been America's go-to source for affordable tools. The family-owned company started in Southern California in 1977, when 17-year-old Eric Smidt began transforming his father's small phone sales business into a successful mail order company, bypassing the resellers, dealing directly with factories, and passing the savings on to the customer.

The company opened its first store in 1980. Today Harbor Freight Tools has more than 1,100 stores across the country, 21,000 employees and more than 40 million customers who depend on Harbor Freight's quality and value to earn a living, repair their homes and cars and pursue their hobbies. With core values of excellence and continuous improvement, Harbor Freight Tools works to constantly improve the quality of its products and this year will introduce more than 700 new tools and accessories. Harbor Freight Tools is one of the nation's fastest growing retailers, opening two new stores every week.
