HARBOR FREIGHT TOOLS, THE DESTINATION FOR PORTABLE GENERATORS, INTRODUCES 5 NEW PREDATOR™ GENERATORS, INCLUDING THE PREDATOR 9500W SUPER QUIET INVERTER—THE MOST POWERFUL PREDATOR INVERTER EVER

2 Super Quiet Inverters, 2 Inverters and a New Predator 1800W Join 5 Portable Generators Currently Available

(April 5, 2021; Calabasas CA) Harbor Freight Tools, America's go-to store for quality tools at great values is expanding one of its most popular lines, Predator Generators, with the addition of five new models. These new generators come with innovative new features and cover a wide variety of uses, from emergency backup to recreational to job sites— all at significantly lower prices than the competition.

There are two new additions to the innovative and popular Super Quiet Inverter Generator series:

Predator 9500W Super Quiet Inverter Generator: This new generator brings 459cc's of power to the Predator family, but is so quiet you would hardly know it was running. It features over 18 hours of runtime at six times more power than other inverters. That's enough power to provide full home or shop backup when you need it most. At 67dB, it's significantly quieter than traditional generators, so you get all that power without the distracting background noise, which makes it perfect for homes, businesses, job sites, and even film production. It features multiple GFCI protected 120V outlets, a 120V/240V 30A outlet, 12v DC, and USB port. Pure sine wave inverter technology guarantees steady, reliable power like you get from your home outlets so you can safely power all your electronics, even sensitive ones like smartphones, laptops and TVs worry free. An electric start with battery included means an easy, dependable start every time. And all that power really is portable, thanks to the four wheel system and convenient folding handle, so you can easily take it wherever and whenever you need it. The CO SECURE™ technology automatically shuts off the generator for safety when harmful levels of carbon monoxide are detected. This is a great value at \$1799.99—a low price for a super quiet generator with 6X more power.

Predator 1400W Super Quiet Inverter Generator: This ultra-light (33 lbs.), ultra-portable and ultra-quiet (60dB—as quiet as a conversation) inverter generator provides safe power perfect for running small appliances or electronics at your campsite, RV or anywhere you want to enjoy the peace and quiet of the outdoors. The electronic speed control mode optimizes engine performance to maximize runtime for more than 7 hours. It features 12V DC output and parallel capability, allowing you to get 2800W by connecting a second generator. Also included are multiple 120V household outlets and dual USB ports. Pure sine wave inverter technology guarantees steady, reliable power like you get from your home outlets, so that even in nature you can safely power your cellphone, laptop or TV. It's also perfect for tailgating, birthday and other parties, and any event where you need power without the noise of a traditional portable generator. The CO SECURE technology automatically shuts down the generator for safety when harmful levels of carbon monoxide are detected. Great power for fun anywhere at a great Harbor Freight price--\$429.99

Harbor Freight is also introducing two completely new models of inverter generators to the Predator Generator line:

Predator 8750W Inverter Generator: This powerful generator has a 420cc engine that provides 8750W of starting power and enough safe power for large and medium size applications. Inverter technology with electronic speed control maximizes runtime to over 15 hours. 25% lighter than a traditional generator, this is perfect for large and small job sites as well as emergency home backup when you need it. It's built for durability, portability and safety, with a 1.1" steel frame and large 10" wheels for maximum mobility. The battery powered electric start guarantees easy start up every time. It features four GFCI protected 120V 20A outlets, a 120V/240V 30A twist-lock outlet, a 12V DC outlet and two USB ports. Pure Sine Wave Inverter technology, so you can safely power all your sensitive electronics, like smartphones, laptops and TVs. Pure Sine Wave Inverter technology guarantees steady, reliable power like you get from your home outlets so you can safely powers all your electronics, even sensitive ones like smartphones, laptops and TVs worry free. The CO SECURE feature monitors carbon monoxide levels and automatically shuts off for safety when harmful levels of carbon monoxide are detected. A great value at \$1199.99 for the job site or backup power at home.

Predator 4400W Inverter Generator: This generator provides the perfect amount of power for medium and small applications, and is great for job sites with its four 120V GFCI protected outlets and a 1" steel frame for protection and durability. This inverter generator is powered by a 223cc Predator engine with inverter technology and electronic speed control to provide a maximum runtime of more than 16 hours. At 67dB, it's quieter than a traditional generator, and at 77 lbs., it's also over 20% lighter, so it's perfect for RV owners too. It has a 120V 30A twist-lock outlet, two USB outlets, and also features parallel capability, allowing you to double your available power by connecting a second generator. Pure sine wave inverter technology guarantees steady reliable power like you get from your home outlets so you can safely powers all your electronics, even sensitive ones like smartphones, laptops and TVs worry free. CO SECURE technology monitors CO (carbon monoxide) levels and automatically shuts off for safety when harmful levels of carbon monoxide are detected. Get more done with Predator Generators at just \$599.99.

Finally, for recreational use and tailgating at an incredibly low price, there's the new **1800W Predator Portable Generator**. Lightweight (60 lbs.) and portable, it provides over 9 hours of

runtime. It has a voltage meter to help monitor output status and an integrated fuel gauge for easy fuel monitoring. The AC and DC outlets power a variety of applications, and at \$279.99, it's a deal that can't be beat. CO SECURE technology monitors CO (carbon monoxide) levels and automatically shuts off for safety when harmful levels of carbon monoxide are detected.

About Harbor Freight Tools

For more than 40 years, Harbor Freight Tools has been America's go-to source for affordable tools. The family-owned company started in Southern California in 1977, when 17-year-old Eric Smidt began transforming his father's small phone sales business into a successful mail order company, bypassing the resellers, dealing directly with factories, and passing the savings on to the customer.

The company opened its first store in 1980. Today Harbor Freight Tools has more than 1,100 stores across the country, 23,000 employees and more than 40 million customers who depend on Harbor Freight's quality and value to earn a living, repair their homes and cars and pursue their hobbies. With core values of excellence and continuous improvement, Harbor Freight Tools works to constantly improve the quality of its products and this year will introduce more than 1200 new tools and accessories. Harbor Freight Tools is one of the nation's fastest growing retailers, opening two new stores every week.
