HARBOR FREIGHT TOOLS LAUNCHES ITS HIGHLY ANTICIPATED PREDATOR™ 212cc GHOST™ GO-KART RACING ENGINE

(May 31, 2022; Calabasas CA) Responding to customer demand, Harbor Freight Tools has released its Predator™ 212cc GHOST™ Go-Kart Racing Engine. Engineered and developed for competitive racing, the high-performance GHOST racing engine can be added to most major chassis brands.

To achieve optimum power and durability, the GHOST engine was rigorously tested on the track. Experienced engineers worked with a three-time national go-kart racing champion who provided expert feedback on how it performed in a professional racing environment.

The GHOST racing engine features include a digital ignition system with built-in rev limiter at 6100 RPM, fire-ring head gasket and a racing ring piston package. The D-shaped high-flow racing port allows more air in and out of the combustion chamber and—as professional go-kart drivers know—more air means more power on the track.

The engine delivers four-stroke performance and features a ground cam with built-in mechanical compression release, high-silicon valve springs and a squeeze-cast, T6 heat-treated aluminum rod, providing strength and durability. The dual ball-bearing racing cylinder with cast iron sleeve ensures less friction and long-lasting reliability.

Available in-store and online, the Predator 212cc GHOST Go-Kart Racing engine is an incredible value at \$299.99, approximately half the price of its leading competitor.

For maximum speed, performance and easier installation, Harbor Freight is also featuring the Predator GHOST 212cc Kart Racing Engine Accessory Kit, which includes an exhaust pipe with muffler, silencer and mounting hardware, air filter, 6 ft fuel line, head gasket, a high-performance fuel pump and more. All products included in the kit are designed to get a racing kart onto the track as soon as possible.

Available in-store and online, the GHOST 212cc Kart Racing Engine Accessory Kit is also competitively priced at \$149.99.

About Harbor Freight Tools

For more than 45 years, Harbor Freight Tools has been America's go-to source for affordable quality tools. The family-owned company started in Southern California in 1977, when 17-year-old Eric Smidt began transforming his father's small phone sales business into a successful mail order company, bypassing the resellers, dealing directly with factories, and passing the savings on to customer. Today more than 40 million customers depend on Harbor Freight's quality and value to earn a living, repair their homes and cars and pursue their hobbies.

The company opened its first store in 1980. Harbor Freight Tools is one of the nation's fastest growing retailers, with more than 1300 stores across the country and opening two new stores every week. With 24,000 Associates, the company was recently recognized for the second year in a row by *Forbes* as both one of the 20 best large companies to work for in retail and the nation's Number One Employer for Veterans in its category. *Forbes* has also recognized Harbor Freight Tools as one of 20 best large companies for women to work for in retail, one of the best large companies for diversity. The company has also been recognized as one of the country's top employers in terms of diversity and inclusion by DiversityJobs.com.

With core values of excellence and continuous improvement, Harbor Freight Tools works to constantly improve the quality of its products and this year will introduce more than 800 new tools and accessories. Harbor Freight Tools locations are open 7 days a week, Mondays through Saturdays from 8 am to 8 pm and on Sundays from 9 am to 6 pm.
