(August, 2022; Calabasas CA) Harbor Freight Tools is expanding its CHICAGO ELECTRIC WELDING™ line, with a new 20A Plasma Cutter with inverter technology.

The 20A Plasma Cutter easily cuts through various materials including cast iron, steel, stainless steel, copper, brass, aluminum, titanium and magnesium alloys.

The torch is protected with a safety guard, and a thermal overload protection indicator. The built-in internal air/gas regulator includes a pressure adjustment, allowing for precise settings.

The 20A Plasma Cutter has an analog and digital display with a duty cycle of 20A at 35%, 16A at 60%, and 12A @ 100%.

Accessories included with the Plasma Cutter are a ground clamp, plasma torch, 10 ft. ground cable, 13 ft. torch cable, three nozzles and electrodes, and a 20A to 15A plug adapter.
