## **HARBOR FREIGHT TOOLS INTRODUCES HERCULES® FORCED ROTATION DUAL ACTION POLISHER AT SEMA IN LAS VEGAS**

(November 2, 2022; Las Vegas NV) Harbor Freight Tools previewed the new HERCULES® 6 In. Forced Rotation Dual Action Polisher at SEMA (Specialty Equipment Market Association), the nation's premier auto industry trade show, today.

The HERCULES Forced Rotation Dual Action Polisher will be available in stores and online in late February 2023.

Featuring a powerful 8.0 Amp soft start motor, the polisher is engineered for heavy paint correction, or sealant application, while providing a swirl-free finish.

To match speed to application, it has a six-speed dial with a range of 3200 to 9600 oscillations per minute, for precise and powerful paint correction when polishing.

An adjustable knob grip allows the user to maintain maximum control, while the ergonomic soft grip handle provides added comfort while in use. For reduced vibration, a premium 6 in. hook and loop backing pad is included. The durable rubber cord is 25 feet long, making it easy to move around a vehicle during use without an extension cord.
