HARBOR FREIGHT TOOLS SHOWCASES NEW ICON™ PROFESSIONAL U-JOINT PULLER AT SEMA

(November 1, 2023; Las Vegas, NV) Harbor Freight Tools showcased its new ICON™ Professional U-Joint Puller at the SEMA (Specialty Equipment Market Association) Show today.

The Puller removes tough U-joints without damaging the driveshaft, yokes, joints, or bearing caps and allows the user to disassemble U-joint cups without heat or hammering. The heavy duty construction makes this puller safe to use with impact wrenches up to 1 in.

Engineered to remove U-joints with bearing caps 1.5 in. to 2.2 in. in outer diameter, the ICON U-Joint Puller services class 6 (medium duty) trucks, and class 7 and 8 (heavy duty) trucks. The drive screw is manganese phosphate-coated for superior corrosion resistance.

The premium multi-function carrying case quickly and easily converts into a storage tray that fits most tool drawers, keeping the workspace organized and clutter-free.

Currently priced at \$99.99, the ICON Professional U-Joint Puller is available only at Harbor Freight.
