CALABASAS, CA – Harbor Freight has added a 20V Brushless Cordless Variable-Speed Jig Saw to its professional HERCULES® line.

Featuring a powerful brushless motor—up to 3000 SPM (strokes per minute)—the Jig Saw quickly and easily cuts through the toughest materials, including hardwood and metal. The brushless motor offers more power, runtime, and durability than a brushed motor.

For precise, clean cuts, and less chipping, the HERCULES Jig Saw has a variable speed trigger, and four-position orbital cutting modes for superior performance.

The tool-free shoe bevel has positive stops for quick, accurate shoe adjustments at 0° and 45°, and has a tool-free blade change system for fast changes between cuts.

To keep the work area clean and clear of debris, it has an on/off outline blower that can easily be turned off when the dust extractor is being used. A bright LED light illuminates the cut line for optimal visibility.

Backed by a five-year limited warranty, the HERCULES 20V Brushless Cordless Variable-Speed Jig Saw offers outstanding quality and value and is currently priced at \$79.99, less than half the price of the competition. Battery and charger sold separately.

It is available only at Harbor Freight.
