CALABASAS, CA - Harbor Freight has introduced a 20V Brushless Cordless, 7-1/4 in. Rear-Handle Worm-Drive Style Circular Saw to its professional HERCULES® lineup.

The Circular Saw has a high-performance brushless motor to cut all grades of lumber such as engineered wood, and the toughest hardwoods including hickory, hard maple, and white oak.

With a 2-1/2 in. maximum cutting capacity, the Saw is ideal for framing jobs and gets up to 725 cuts per charge with a 12 Ah battery.

It has a durable cast magnesium shoe with easy-to-read guide markings for safe and accurate cuts. The blade on the left side of the Circular Saw offers the user a clear line of sight when making any cut.

For quick and precise adjustments, it has bevel detents at 15°, 22-1/2°, 30°, 45°, and 53°.

To illuminate the work area for increased visibility, the HERCULES Circular Saw has a bright LED light, while the built-in dust blower keeps the cutting line clear of sawdust.

For quick blade changes and added convenience, the Saw features onboard wrench storage, and it has an integrated rafter hook for easy storage between uses.

Offering exceptional value compared to the competition, the HERCULES 20V Brushless Cordless, 7-1/4 in. Rear-Handle Worm-Drive Style Circular Saw is available only at Harbor Freight.
