CALABASAS, CA - Harbor Freight has added a powerful 8.5 Amp, 1/2 in. Impact Wrench with 2 in. Extended Anvil and Rocker Switch to its customer favorite BAUER lineup.

Delivering up to 1050 ft-lbs. of bolt breakaway torque, the Impact Wrench has the power to remove stubborn fasteners quickly, and easily. For added convenience, the 2 in. extended anvil with friction ring reaches into tight spaces including deep wheel wells.

The Impact Wrench is ideal for tire changes, engine repairs, and loosening of nuts and bolts.

Built to withstand heavy duty use while on the job, the BAUER Impact Wrench features all-metal gear construction for longer life and durability. A rubber nosepiece provides added protection.

To reduce user fatigue, the Impact Wrench has an ergonomic rubberized grip, and the forward/reverse rocker switch can easily be controlled with one hand. The rocker switch allows the user to quickly and easily change the direction of the Impact Wrench without having to take their hand off the tool.

Offering incredible value compared to the competition, the BAUER 8.5 Amp, 1/2 in. Impact Wrench with 2 in. Extended Anvil and Rocker Switch is available only at Harbor Freight.
