CALABASAS, CA - Harbor Freight has added a 3/8 in. Drive, 5 to 100 ft-lb Professional Flex-Head Digital Angle Torque Wrench to its professional ICON™ lineup.

The Digital Angle Torque Wrench has four alert modes – audible, LCD, LED, and vibration. The four alerts ensure the user applies the optimum torque required, without over or under tightening.

Fast and easy to adjust, the Torque Wrench has an easy-to-read LCD screen that includes torque, angle, and measurements in ft-lb, in-lb, Nm, Kgcm, and dNm. It can program and store up to nine present torque settings.

For use in tight spaces such as engine bays, the flex-head rotates up to 15° and has a 72-tooth ratcheting mechanism.

The versatile Digital Torque Wrench is ergonomically designed and made of durable hardened steel that delivers a torque range from 5 to 100 ft-lb. It comes with a factory certificate of calibration and can be re-calibrated.

Offering incredible value compared to the competition, the ICON 3/8 in. Drive Professional Flex-Head Digital Angle Torque Wrench has a lifetime warranty. It is available only at Harbor Freight.
